## INTRODUCTION

### DESCRIPTION

This webpage about my portfolio that anything related to me. There are total 5 pages in this webpage. Firstly, in the first page visitor can find my photos and some of my opening words that contains details what is I am currently doing at this time and where am I studying. It also contains planets that are represent other page and I use the galaxy scenery as background of this page. Next, the second page is when visitor click the About Me planet that contains the specific details about me or my biodata, also the brief description is my information that described a little bit about me in form of paragraph and also contained pictures of my school and University. The biodata also contains external link that will proceed to my social media. The next page is page about My Obsession which is I divided into 3 obsessions and elaborate each one of it briefly, this page contains audio in the end of the page. Visitor also can learn the details about my skill in this page instead of the skill I mention in About Me page. The second last page is page about my goals and ambition, in this page visitor can learn personality of me and the achievement that I achieve in school. Also, visitor can imagine what I will be in the future after I complete my studies. The last page is feedback form to ask visitor about the experience spend time checking my E-portfolio website because I will evaluate the answer from every visitor to improve my webpage. In this last page also contain request form about my skill to repair and upgrade laptop in case there has visitor want me to diagnose their laptop or PC. All the pages excluding introduction page is the environment of the planet after clicked the pages in introduction page.

### OBJECTIVE
